## Prima Ballerina

The 'ballerina' lampshade holds a special place in the lexicon of lampshades and shade making history. Recognisable for its Edwardian silhouette, twist and frills, the ballerina shade marks a time when electrification led to a surge in the design and manufacture of light fittings for the home. Few people remain with the experience and dexterity to make the ballerina shade. Prima Ballerina draws expressively on the narrative of this iconic shade, demonstrating on a grand scale a seamless blend of the traditional skill of the Rakumba craftswomen and contemporary design.

BLACK SHADE / BLACK STAND ●

A leading Australian artist and designer, Simone LeAmon's protean inventiveness has been applied to an array of commercial and cultural production, including product design, site-specific and interior design, jewellery, limited edition collectibles and design-artwork for exhibition. Appearing in galleries and showrooms around the world, her projects explore the role of storytelling through process and material. In 2007, Simone was identified as one of the world's most exciting designers (&fork, Phaidon Press UK). In 2009, Simone received The Cecily and Colin Rigg Contemporary Design Award (National Gallery of Victoria), one of the most coveted accolades in Australian design.

Developed in collaboration between designer and manufacturer, Prima Ballerina is the second of the distinctive lighting products by Simone LeAmon for Rakumba Lighting. Initiating the Rakumba Design Collaborations in August 2010, we are committed to developing new product ideas with the best design talent and manufacturing capabilities in Australia.

Rakumba has been producing custom-made feature lighting for the Australian design industry since 1968. Collaborating with designers across a wide range of sectors from commercial to residential, we take pride in our bespoke service, onsite prototyping skills and ability to deliver on any scale of project.
